China Medical University

Website <https://www.cmu.edu.tw/>

Introduction

"Established in 1958, China Medical University (CMU) in Taichung, Taiwan, has since developed into one of the world's premiere medical research universities with 9 colleges in total: the Colleges of Medicine, Chinese Medicine, Pharmacy, Life Sciences, Public Health, Health Care, Dentistry, Humanities and Technology, and Biomedical Engineering. CMU is ranked as one of the top 300 universities by Academic Ranking of World Universities 2021, ranked top 350 by Times Higher Education (THE) World University Rankings 2021 and ranked top 100 by 2021 THE Asia University Rankings.

CMU trains both western medicine doctors and Chinese medicine doctors and implements the best integration of western and Chinese medicine at CMU Hospital providing outstanding medical service to patients. As a leader in several research fields with a culture of collaboration and innovation, CMU has made important breakthroughs in cancer treatment such as inventing combined target therapy and immune checkpoint therapy to overcome difficult malignancies, lengthening the survival of glioblastoma patients, discovering ANK-199, a promising anticancer drug that treats head and neck cancer, and identifying the receptor protein IL-17RB that is strongly associated with pancreatic cancer. The Center of Excellence for Chinese Medicine is awarded with Top-Notch Center Grant by Ministry of Education (MOE) for 5 years and conducts many lines of clinical studies and discovery of mechanisms underlying the acupuncture-induced anesthesia via opioid-dependent and opioid-independent pathways.

International collaborative partnerships with prestigious institutions such as Stanford University, the M.D. Anderson Cancer Center, UC Irvine, National University of Singapore, Nanyang Technology University, and University of Tokyo have been firmly established. Additionally, over 80 international healthcare companies and venture capitalists are assisting the university with its knowledge transfer mission. Thus far, over 60 new drugs have emerged from CMU's research laboratories, as well as 10 spin-off companies."

I-Shou University

Website <https://www.isu.edu.tw/en1/index.htm>

Introduction

I-Shou University (ISU) was established in 1986 by Chairman I-Shou Lin of E United Group. Built on a solid foundation of sustainable and continuous development, ISU currently has ten colleges: College of Electrical & Information Engineering, College of Engineering, College of Management, International College, College of Language Arts, College of Tourism & Hospitality, College of Communication & Design, College of Medicine, College of Medical Science and Technology, and the College of Indigenous Studies, and works toward becoming an international comprehensive university that equally values humanities and technology and cultivates professionals to serve the current and future needs of the industry. Located near E-Da Hospital and E-Da Cancer Hospital, the Medical Campus was opened in Yanchao District, Kaohsiung City, in 2006 to accommodate medicine-related departments, providing students with superior learning and training environment.

ISU has long been widely recognized and accredited by many international organizations. From 2015 to 2017, ISU has been named as one of the best universities by the Times Higher Education for three successive years and as one of the best universities in Asia from 2016 to 2018; in 2016, the College of Management, the College of Tourism and Hospitality, and the International College was accredited by the AACSB with one review visit; in 2017, ISU was listed in the Round University Rankings for the first time; in 2018, ISU was named not only by the Times Higher Education as one of the best universities in the Young University Rankings 2018, it was also named by the Taiwan-based Global Views Monthly as one of the best universities in the 2018 Taiwan University Rankings and awarded the Best Progress Award, achieving 14th place among comprehensive universities nationwide and No. 1 in southern Taiwan as a private comprehensive university.

- Number of students in total: 16,500 +

National Cheng Kung University

Website <https://www.ncku.edu.tw/index.php?Lang=en>

Introduction

National Cheng Kung University (NCKU) is a public and research comprehensive university located in Tainan, Taiwan. The university is best known for its nine colleges in liberal arts, science, engineering, electronic engineering & computer science, medicine, management, social sciences, planning & design, and bioscience and biotechnology, and also the Miin Wu School of Computing, Academy of Innovative Semiconductor and Sustainable Manufacturing.

NCKU is also a founding member of Taiwan Comprehensive University System (TCUS) which is a strategic alliance of four leading research universities in the Southern Taiwan, and also a member of Worldwide Universities Network (WUN) which is a renowned international academic alliance. NCKU also initiated the Presidents' Forum of Southeast and South Asia and Taiwan Universities (SATU) to gather with presidents in Taiwan and Southeast and South Asia with 103 member universities to share their valuable experiences to improve higher education and international cooperation in the region.

NCKU is reaching out as a university with a pragmatic academic climate, solid research strengths, and internationalized learning environment interdisciplinary innovation, effective academia-industry cooperation and a pragmatic approach to global issues. NCKU aims to be a university that is the pride of Taiwan and an inspiration to Tainan and institution that our partner schools respect and are happy to work with. NCKU is positioned as a university of global importance that develops high quality, well-rounded citizens.

National Chengchi University

Website [https:// www.nccu.edu.tw](https://www.nccu.edu.tw)

Introduction

National Chengchi University (NCCU) was founded in Nanjing in 1927, and was subsequently relocated to Taipei, Taiwan in 1954. Since its establishment, NCCU has developed a storied legacy in the fields of humanities and social sciences. It is now home to 11 colleges including Liberal Arts, Law, Commerce, Science, Foreign Languages, Social Sciences, Communication, International Affairs, Education, Informatics, and the International College of Innovation. With all the aforementioned colleges working alongside each other, NCCU is well known for leading the integration of various disciplines with digital technology in a global context.

NCCU is also ranked No.1 for friendly English-learning environment in Taiwan, with international students making up 18% of its student body. NCCU offers at least 10 English-taught PhD programs, six English-taught Master's programs and two English-taught undergraduate programs. Every year, students have access to more than 800 courses taught in English. Furthermore, NCCU collaborates with 496 partner universities worldwide for student and staff exchange, and receives nearly 800 overseas exchange students every year before the pandemic.

With regard to global recognition, NCCU has been one of the top 100 universities in the QS Asia University Ranking for six consecutive years. NCCU's College of Commerce is the first business school in Taiwan with both AACSB and EQUIS international accreditation, and is the only Taiwan member in PIM, a prestigious business school league.

NCCU's mission is to cultivate a new generation of leaders, thinkers and global citizens, characterized by their humanitarianism, professionalism, innovativeness and global vision, supported by NCCU's world-class instruction and research.

National Formosa University

Website <https://www.nfu.edu.tw/index.php/en/>

Introduction

The predecessor of the National Formosa University is the National Yunlin Institute of Technology (NYIT), which is one of the three major technical colleges in Taiwan. It has preserved fine tradition and is a vocational institute of education that values practical ability, industry-academy application, and excellent character development.

The university actively engages in constructing new student dormitories and the development of new campuses near the High-Speed Rail. In recent years, it has been in charge of the Flagship Team Project of Industry-Academy Research under the Ministry of Economics in the name of the leading university, passed the International Industry-Academy Alliance Program under the Ministry of Science and Technology, and established a Smart Machinery and Intelligent Manufacturing Research Center, in addition to an Aviation Maintenance Training Center. All of them indicate that National Formosa University has emerged in all fields and accumulated sufficient research and development energy. The Ministry of Education has well recognized the university's deep-cultivation plan of higher education since 2018. The allocated funding ranks third among National Universities of Science and Technology in Taiwan. The core indicator "University Social Responsibility Program" is granted the support of 67 million NT dollars.

Appealing with the slogan "co-presence", the National Formosa University undertakes the local social responsibilities and encourages cross-field collaboration among teachers. For many years, the university has devoted to Yunlin, cultivated local creations, and promoted community linkage; the implementation results have been widely recognized.

National Pingtung University

Website <https://eng.nptu.edu.tw/>

Introduction

National Pingtung University(NPTU), a newly merged university on August 1, 2014, inherits the rich teaching and research potentials in the fields of technological and vocational education, comprehensive higher education, and normal education from National Pingtung University of Education(NPUE) and National Pingtung Institute of Commerce(NPIC). NPTU since then commits itself to building up a university of teaching and research for specialization, which responds to the trends in modern higher education. NPTU academic programs include Colleges of Education, Science, Liberal Arts and Social Sciences, Management, and Computer Science(five main fields), plus International College, Mt. Dawu College(general education) and Center of Teacher Education. With the inherited excellent capacities from NPUE and NPIC, this new university is regarded as a great place for developing professional talents to meet the demands of the industry and country, based on the outstanding professional performances of its previous alumni of NPUE and NPIC. However, the mission of higher education is not only to develop professional talents but also shape up their personalities. the educational philosophy of NPTU strongly emphasizes on the balanced development of humanistic qualities, professional knowledge, and practical experiences of our students. To accomplish the goal, diverse leading-edge professional courses and holistic education are designed to cultivate students' professional skills and humanistic qualities. In addition, faculty members are required to seeking resources for research and development from governments and private sectors. Meanwhile, students are encouraged to participate in the academia-industry cooperative projects and earn practical experiences before they graduate. NPTU is convinced that our students will be able to develop great characters of professionalism, humanistic qualities, innovative creativity, responsibilities, and empathy for others, and so on to stand out among st their peers through the above-mentioned educational measures.

National Sun Yat-sen University

Website <https://www.nsysu.edu.tw/?Lang=en>

Introduction

Named after the Republic's founding father Dr. Sun Yat-sen, National Sun Yat-sen University was established in 1980 by the government to set up a comprehensive higher education institution in southern Taiwan. Over the years, NSYSU has grown to become one of the best universities in the country with nearly 9,500 students and 500 faculty members and has successfully assumed the role of the academic hub in the south.

NSYSU is a highly research-oriented university where graduate students constitute half of the student population. Research output by each faculty member contributes to the University's excellence in many academic fields and has landed NSYSU in the world's top universities.

The campus sits in the scenic Sizih Bay of Kaohsiung, a unique location surrounded by the ocean and the mountains. Its privileged geographical setting provides an unrivaled experience for students, faculty and staff studying and working at the University.

NSYSU has over 280 partner institutions in 45 countries around the world. We engage in student exchange, dual-degree programs, joint supervision, research collaborations, and co-sponsorship of symposiums.

The University has set a goal of becoming a bilingual university by 2030. Efforts have been made to create an international and friendly environment. International students and faculty are welcomed at our beautiful campus for a degree or short-term study and research. They are encouraged to participate in various activities to mingle with locals to gain a deeper understanding of Taiwanese culture.

National Taichung University of Education

Website <https://www.ntcu.edu.tw/eng/>

Introduction

National Taichung University of Education (NTCU) is a university with proud legacy. Founded in 1899 at the Confucian Temple in Changhwa and relocated to the current site in 1923, the university has prepared not only excellent teachers but also talents in diversified fields, such as court judges, lawyers entrepreneurs, politicians, and engineers.

NTCU is an excellent comprehensive university with four colleges. College of Education, College of Management, College of Science, and College of Humanities.

The university pursues its mission through erudition and excellence in education and fosters the enrichment and fulfillment of the whole person. Its guiding principles have been “refinement, creativity, and new prospect.” It emphasizes on student-centered teaching encompassing scientific and humanistic education and advocates professionalism with critical thinking. Pursuing the goal as the local’s best, the nation’s leading, and the world’s famous university of education, NTCU expects to be excellent because of its students and anticipates its students to be proud of NTCU.

National Taipei University of Technology

Website <https://www-en.ntut.edu.tw/>

Introduction

Taipei Tech was founded at its present location in central Taipei in 1912, making it one of the first higher education institutions in Taiwan. Today at Taipei Tech, there are over ten thousand students in seventy programs in six colleges. The specializations include engineering, design, and management.

Taipei Tech has since produced some of the most influential entrepreneurs, leaders, educators, and researchers in the science and industrial field and is commonly referred to as “the birthplace of future entrepreneurs,” 10% of founders, board members, & CEOs of Taiwan’s publicly traded companies are Taipei Tech alumni.

Taipei is the economic, educational, technological, and cultural center of Taiwan and a major hub in East Asia. Taipei Tech is at the center of this bustling city and has easy access to an exceptional amount of resources and opportunities. Taipei Tech values global collaboration and partnership, more importantly, hopes to utilize and share experiences and expertise with one another to traverse uncharted territories.

Rankings attempt to measure and identify the strength of the particular subject areas, including (in 2022 QS subject ranking):

National Taiwan Sport University

Website <https://www.ntsuo.edu.tw/index.php?Lang=zh-tw>

Introduction

In 1973, in response to the government's call for the development of national sport, Formosa Plastics Group Chairman Yung-Ching Wang donated a gymnasium, the first domestic dome in Taiwan, to the government by purchasing a land. On July 1, 1987, National College of Physical Education and Sports was formerly established and Prof. Min-Chung Tsai was hired as the first president by the Ministry of Education. On July 1, 1990, Prof. Chin-Sung Chiu became the second president; Prof. Hsien-Ching Yeh became the third president on July 1, 1999. Prof. Hung-Shih Chou became the fourth President on July 1, 2002.

On February 1, 2008, “National College of Physical Education and Sports” was renamed “National Taiwan Sport University” with two campuses (Taichung campus and Taoyuan campus). Prof. Hung-Shih Chou became the first president of National Taiwan Sport University. In 2009, National Taiwan Sport University-Taoyuan campus was officially renamed National Taiwan Sport University (NTSU); National Taiwan Sport University-Taichung campus was renamed National Taiwan College of Physical Education. On August 1, 2010, Prof. Chin-Hsung Kao became the second president of NTSU and was approved by the University Affairs Council for another 4-year presidency in 2013. Under the leadership of President Kao, National Taiwan Sport University had 7 undergraduate programs and 10 graduate programs, with nearly 2,300 students on campus.

2017 Universiade competitions of swimming, handball, archery hold in National Taiwan Sport University. In November 2017, Universiade Memorial Plaza unveiled in National Taiwan Sport University, as recording the Honor of Universiade, also becoming a new rest spot for citizen. In August 2018, the Ministry of Education hired Prof. Ping-Kun Chiu as the fourth president of NTSU. Setting up Chinese Language Center, and Sport Policy and Social Research Center in February 2019. In August 2020, setting up Sport Promotion Special Class for Aborigines under College of Physical Education.

National Taiwan University

Website <https://www.ntu.edu.tw/english/>

Introduction

NTU is the most comprehensive higher education institute in Taiwan. As of the academic year 2021-2022, the University has a total of 16 colleges (including International College, D-School, Graduate School of Advanced Technology, Center for Education, School of Professional Education and Continuing Studies), 3 professional schools (dentistry, veterinary medicine, and pharmacy), 56 departments and 139 graduate institutes (including 32 graduate programs), and the number of students reached over 32,000 in 2021, including over 16,000 undergraduates and 15,000 graduates. Now, the number of graduate students at NTU almost equals the number of university students, which indicates that NTU has successfully been transformed into a research university.

Statistics (Year 2022)

- Number of students in total: 33,981
- Number of international students: to be confirmed
- Number of Incoming Degree students: to be confirmed
- Number of Incoming Non-Degree students: 0 (due to pandemic)
- Number of Outgoing Degree students: to be confirmed

National Taiwan University of Science and Technology

Website <https://www.ntust.edu.tw/index.php?Lang=en>

Introduction

The National Taiwan University of Science and Technology was founded on August 1, 1974, as the National Taiwan Institute of Technology (NTIT). It was the first higher education institution of its kind within our nation's technical and vocational education system. By extending this system to the highest level, this new school was intended to meet the need created by our rapid economic and industrial development for highly trained bachelor's degree-level engineers and managers. In 1979 and 1982, NTIT added master's and doctoral programs, respectively.

On August 1, 1997, NTIT was upgraded to university status and changed its name to the "National Taiwan University of Science and Technology," also known as "Taiwan Tech." At that time, the school reorganized itself into five colleges. After thirty years of growth and evolution, currently, Taiwan Tech is comprised of six colleges, including engineering, electrical and computer engineering, management, design, liberal arts & social sciences, and applied science.

Our vision is to build Taiwan Tech into an international applied research university producing high-tech and management personnel with the ability to compete on a global level, thus supporting the future growth of our nation and society.

Our overall goals are to employ multifaceted excellence, innovative expertise, technology integration, and holistic education on the platforms of intelligent green building technology and creative design while recruiting internationally-renowned professors to help us achieve cutting-edge breakthroughs in all aspects of our teaching and research. This will inspire the development of the entire university, neighboring academic and research institutions, and local industry in the upgrading of our national ability to compete on a global stage.

National Tsing Hua University

Website <https://nthu-en.site.nthu.edu.tw/>

Introduction

National Tsing Hua University was established in Beijing in 1911 as “Tsing Hua Academy.” In 1956, National Tsing Hua University was re-established at its present location in Hsinchu, Taiwan.

Since its relocation, NTHU has developed into a comprehensive research university offering a full range of degree programs in science, technology, engineering, humanities, social sciences, and management. NTHU consistently ranks as one of the premier universities in East Asia, and is widely recognized as a leading incubator for future leaders. Our outstanding alumni highlight the success of NTHU students, including Nobel Physics laureates Dr. Cheng-Ning Yang and Dr. Tsung-Dao Lee, Nobel Chemistry laureate Dr. Yuan-Tseh Lee, and Wolf Prize winner in mathematics Dr. Shiing-Shen Chern.

National Yang Ming Chiao Tung University

Website <https://en.nycu.edu.tw/>

Introduction

National Yang Ming Chiao Tung University was created in 2021 through the merger of two universities: National Yang-Ming University and National Chiao Tung University. Yang Ming, which focused on biomedical research, and Chiao Tung, which focused on electronic communication research, were both top-tier universities in Taiwan. At present, there are 19 colleges and 74 university/college-level research centers. Faculties include artificial intelligence, biological science and technology, biomedical science and engineering, computer science, dentistry, electrical and computer engineering, Hakka studies, humanities, and social sciences, law, life sciences, management, medicine, nursing, and pharmaceutical sciences, photonics, and general education.

Thus, it is imagined that the merger will eventually bring forth a great and innovative university that is second to none, with 1,400 teachers and 17,000 students collaborating to create a great generation that will develop and further Taiwan's emerging smart medical industry.

In addition to implementing effective integration and innovation under the conventional organizational structure of regular teaching, research, administration, and student affairs, NYCU is singularly unique as it will establish Taiwan's most innovative smart medical research. NYCU will combine the strengths of Yang Ming and Chiao Tung to jointly develop medical applications in terms of AI, telemedicine, medical robots, Internet of Things, wearable devices, and block-chain biomedical as an Eco-system amongst other developments.

Statistics (Year 2022)

Providence University

Website <https://enpu.pu.edu.tw/>

Introduction

Providence University is a Catholic co-educational institution that was founded in 1956 by an American congregation: the Sisters of Providence of Saint Mary-of-the-Woods, Indiana, USA. Providence University is one of the prominent educational institutions in Taiwan, with 23 departments, 19 graduate programs, two Ph.D. programs, 5 EMBA programs, and one Chinese Language Education Center. We have about 11,000 undergraduate students, 1,200 graduate students and 400 full-time faculties (all approximate figures). More than 10% of our students are oversea students from more than 30 countries. We work with many international partnerships to establish double degree programs, COIL teaching exchange, student exchange programs and Erasmus+ Programs (only with European partners). We provide International Computer Science Program, Business Administration Program and MBA program completely taught in English.

Tamkang University

Website <https://english.tku.edu.tw/>

Introduction

Tamkang University(TKU) currently has 248 partner universities spreading across 5 continents and 39 countries. Before the pandemic, every year there are about 800 students studying abroad at TKU's overseas partner universities (including 200 tuitions-waived and 600 tuitions-paid), with a total of more than 8,250 students taking up the challenge to date. Meanwhile, there are 1,735 international students studying at TKU.

TKU is the campus model of internationalization by providing 10 English-taught programs, 800 English-taught courses. Our Chinese Language Center is the second-large one in Taiwan. We have experienced Chinese teachers and free Chinese courses for international students.

Statistics (Year 2022)

- Number of students in total: 23,581 (calculated to Mar. 15, 2022)
- Number of international students: 700 (calculated to Mar. 15, 2022)
- Number of Incoming Degree students: 481 (Fall 2021/Spring 2022 academic year)
- Number of Incoming Non-Degree students: 32 (exchange students / Chinese language program students from Fall 2021)

Wenzao Ursuline University of Languages

Website <https://www.wzu.edu.tw>

Introduction

Founded by Ursuline sisters of the Roman Union of the Order of St. Ursula in 1966, Wenzao is the first and the only university of languages in Taiwan. Wenzao is known for its commitment to excellence in foreign languages teaching and research. With Chinese language and culture as the foundation, Wenzao seeks through foreign language education to provide an understanding of multi-culturalism and an international perspective. Students are equipped with the academic and professional skills which will enable them to achieve linguistic excellence, acquire wisdom, develop leadership and serve society.

There are five units below Academic Divisions: College of International Culture, Education, and Foreign Affairs, College of European and Asian Languages, College of New Media and Management, College and Operation Center of Mandarin and Ursuline College of Liberal Arts. The degree programs include Graduate Institute Program, Four-Year College Program, Two-Year College Program and Five-Year Junior College Program.

The University has established and maintains collaborative relations with about 280 universities and higher education institutions from more than 40 countries in 5 continents which allows 350 outbound exchange students per year. Collaboration between Wenzao and partner schools and institutions covers various areas such as exchanges of students and faculty, dual degree programs, study visits, and teaching or research collaborations. The University receives more than 400 international students and almost 400 Chinese language learners from overseas per year. International students are eligible for degree programs in the Day Division that offers master, bachelor and associate degrees. It looks forward to establishing partnership with more universities with global vision.

Kaunas University of Technology

Website <https://en.ktu.edu>

Introduction

Kaunas University of Technology is a Lithuanian leading university providing studies and research in all areas answering the demands of today's ever-changing world. Ranked the 1st in Lithuania by alumni employability and student satisfaction, KTU is among top 1000 world universities (QS World University Ranking 2022). The University is located in Kaunas - second biggest city of Lithuania which is situated in the center of the country. Kaunas usually hosts around 50 000 students every year, around 10 000 of those are the students of KTU. Currently an international student's community at KTU unifies around 1000 international students. KTU is closely cooperating with business. The University provides studies of engineering, technologies, physical and social sciences, humanities and arts. The research groups working at KTU contribute to the global scientific knowledge by conducting cutting edge interdisciplinary research on the most important questions of current time. Innovative fundamental and applied research solutions corresponding to today's and tomorrow's challenges are being developed at the University. Leadership, high quality of scientific results and new research discoveries mobilise the academic community, and the latest research achievements and acquired practical experience are transferred to students.

University researchers develop and transfer interdisciplinary knowledge and advanced technologies to domestic and foreign industry, business and the public sector by implementing projects of international and national research programmes and executing contracts for outsourced research and development, and innovation (R&D&I).

Lithuanian Academy of Music and Theatre

Website <https://www.lmta.lt>

Introduction

The Lithuanian Academy of Music and Theatre (LMTA) is an internationally recognised higher education institution which trains artists for a professional career in music, theatre, dance and film and offers related theoretical studies. Founded in 1933, the Academy currently hosts about 1,000 students in three study cycles – Bachelor’s, Master’s and Doctoral – in its three faculties, two of which are based in Vilnius, one in Klaipėda.

The LMTA offers tuition by Lithuania’s leading practitioners in a performance-based and creative environment. We are based in Vilnius, an increasingly popular capital city with several symphony orchestras, an opera and ballet theatre, drama and dance theatres, and traditional and modern art centres, as well as in Klaipėda, a port city with a music theatre, a drama theatre, a thriving jazz festival and an ‘open culture factory’. A rich and varied cultural life and visiting international artists who often give masterclasses and workshops for LMTA students add extra value that makes our studies more attractive.

The rehearsal and performance venues in Vilnius and Klaipėda include three Concert Halls, three Dance Studios, a Cinema Hall, a Theatre Studio (Balcony Theatre), an Opera Studio, a Music Innovation Studies Centre and a recording studio. The LMTA collaborates with creative industry and social partners to promote young artists and boost cultural development. Every year the Academy hosts around 500 artistic events, the great majority of which are public and free of charge.

Research, artistic research and educational achievements are published in the LMTA’s scientific journals and are presented at national and international conferences. Artistic research and performance studies are supervised by the Harps platform.

Lithuanian Sports University

Website <https://www.lsu.lt>

Introduction

Lithuanian Sports University (LSU), founded in 1934, is a specialized tertiary level public higher education institution that has developed its unique traditions in sport, leisure, and health sciences. With its mission to contribute to the sustainable development of society through international-level research and academic excellence, LSU is known as a leading academic and research Centre in Sports Science in the Baltic Sea region.

The LSU offers study programs at all three-study cycles, mainly in sport science, where studies, research and practice are closely interconnected. Among the LSU graduates, there are many distinguished scientists, world-renowned coaches, famous athletes, and prominent public figures. 1540 students and 175 teaching and research staff members are at the University. 84 percent of the teaching staff members had a degree. LSU has over 90 international partnerships with universities and higher education institutions in Europe and beyond it. University is the member of various international networks such as follow: International Council of Sport Science and Physical Education (ICSSPE), European Network of Sport Education (ENSE), European Network of Physiotherapy in Higher Education (ENPHE), European Network for the Promotion of Health Enhancing Physical Activity (HEPA Europe), International Council for Coaching Excellence (ICCE), The EAS Dual Career Network (EAS Network), International Association for Physical Education in Higher Education (AIESEP), International Federation for Physical Educators (FIEP), International Association of Universities of Physical Culture and Sport (IASUNI), Baltic Sport Science Society (BSSS), European Association for International Education (EAIE), European Association for Sport Management (EASM), European College of Sport Science (ECSS) and etc. (www.lsu.lt)

Lithuanian University of Health Sciences

Website <https://lsmuni.lt/>

Introduction

The Lithuanian University of Health Sciences (LSMU, Lietuvos sveikatos mokslų universitetas) is the largest institution of higher education for biomedical sciences in Lithuania, successfully integrating studies, research, and clinical practice. LSMU consists of two main academies: Medical Academy and Veterinary Academy. Students of medicine, odontology, and nursing gain their practical skills at the LSMU Hospital Kauno Klinikos, which is the largest medical institution in the Baltic States. More than 2,200 physicians and residents shoulder to shoulder with 2,400 members of the nursing staff take care of over 90,000 patients at the LSMU Hospital each year. Pharmacy students gain practical skills at the University Pharmacy, which is designed not only to serve the public but also to be the main training facility of the Faculty of Pharmacy, offering students a broad spectrum of practical knowledge and skills and providing them with firsthand working experience. Students seeking to become veterinary doctors obtain their practical skills in large and small animal clinics and operating rooms of the Veterinary Academy.

Vilnius Gediminas Technical University

Website <https://www.vilniustech.lt>

Introduction

Established in Vilnius, the capital of Lithuania, in 1956, Vilnius Gediminas Technical University (VILNIUS TECH) is one of the biggest research universities in Lithuania with a focus on technologies and engineering and a strong emphasis on university-business cooperation.

- 3 research centres, 13 research institutes, 22 research laboratories;
- Study programmes in the field of engineering sciences make up 64% of all study programmes;
- Over 900 academic staff members (75% with PhD degree);
- 104 study programmes (BSc and MSc);
- PhD studies in 12 fields of science;
- 41% of all study programmes are taught in English;
- 475 higher education and research partner institutions in 62 countries;
- Around 200 business partners.
- University publishes 15 research journals (10 listed in Clarivate Analytics Web of Science).

VILNIUS TECH has extensive experience in the implementation of international projects within the Erasmus+ programme (Capacity Building, International Credit Mobility, Strategic Partnerships, Knowledge Alliances, Skills Alliances), Horizon2020, Erasmus Mundus, Tempus, Marie-Curie and other EU funded programmes. Each year VILNIUS TECH implements over 50 international projects as a partner or coordinator. The results of the projects contribute to the advancement of the university curriculum as well as facilitate international research and academic activities.

Vilnius University

Website <https://www.vu.lt/en/>

Introduction

Vilnius University is one of the oldest higher education establishments in Eastern and Central Europe, with over 24,000 students and over 3000 academic and research staff, Vilnius University is today an important scientific and education centre. Since its foundation in 1579 by the Jesuits Vilnius University is an active participant in international scientific and academic activities and famous for many prominent scientists, professors and graduates. The University has 15 faculties and institute, the oldest Library in Lithuania, 3 university hospitals, an Astronomical Observatory, a Botanical Garden and St. John's Church.

According to annual ratings Vilnius University is the leading institution of higher education in Lithuania open for new ideas and future perspectives. Vilnius University is ranked within top 400 universities in the world according to QS ranking.

Moreover, Vilnius University is always open for international students and offers a great variety of courses in English (over 900) as well as Bachelor and Master Programmes in English. The University shares the international cooperation with many Universities in Europe and all over the world including the membership in international networks such as UNICA, UTRECHT, Coimbra, ISEP and others. Vilnius University is participating in ARQUS European Universities alliance. The University can also be proud of being the signatory of Magna Carta.

Vytautas Magnus University

Website <https://www.vdu.lt/en>

Introduction

Vytautas Magnus University devotes special attention to international activities. Their beginnings are traced back to the time when the members of the Lithuanian Diaspora, nurturing thoughts of intellectual and cultural rebirth, started coming to give lectures in the university. Today VMU is collaborating with many universities and scientists around the world, carrying out projects, student and worker exchange, constantly improving the system of studying and research.

VMU works with many universities and scientists around the globe, implementing projects, student and employee exchanges, and improving our study and research system. It is an international and multilingual institution that continuously develops international networks and intercultural dialogues, participates in international scientific, academic and social projects, encourages lecturer and student mobility, and promotes dialogue and tolerance. VMU avoids restrictions posed by political, ideological and economic interests, treating everyone with respect and appreciation and providing the opportunity to attend courses of 30 modern and classic languages.
